PTO Committee Assignments: Please see attached committee breakdown attached to your minutes. This committee assignment sheet was briefly covered at the last meeting for the 2016/2017 school year.

As an organizational group we all take responsibility for all activities, but these committee assignments are to identify specific folks that will be the Points of Contact (POC) for planning of these events and

providing updates for what is needed for those activities and well as the logistics of what is involved. (i.e; the POC for the skating party will line up drivers, transportation for the children/volunteers/chaperones, contact the Vinton Skate to identify possible dates, etc). Each committee is provided a sample guideline. This guideline does not encompass all possible details but does provide a solid foundation from which each committee can start from.

Each Committee will have a chairman. The Committee Chair will be responsible for providing a brief update at the PTO meetings and contacting the president/vice-president to have items needing approval placed on the agenda.

New Committees : There has been some discussion for new committees such as the "Dudes & Donuts/Maids & Muffins" elementary wide event. Many local schools have begun this program and it has been suggested that we try this event for some time during the 2017/2018 school year. We need to review pros/cons and decide the logistics of this event. All concerns should be addressed to provide an accurate overview. Open discussion, Pros/Cons, overall sentiment on IVPTO interest?
